 To Havana, all of her volunteer helpers, and Rose and her husband,
 I want to tell you how much I appreciate all of the help and valuable information you have provided for my brother, Howard. Contrary to what you may hear my parents are the people paying for all of Howard's legal bills so the information you are providing is invaluable. I would like you to be assured that your information will never be divulged by me or my family in any way. It has been such a pleasure having all of your help since this tragedy started. My whole family has been greatly affected by the witch hunt my brother is going through. Unfortunately, with the O'Quinn machine, it's taken a huge toll on everyone involved, including all of you. I am so sorry that so much greed has turned into all of this. All of you have been so amazing! I'm proud that Howard has people like you to support him. Thank you always for all that you do. It does make a difference!
 Thanks,
 Bonnie Stern

 Please remember there is a court date tomorrow on Wipe's joint custody request. If you do not correspond with the buyers involved directly, please don't post your "research"
