Von,

I need some help unraveling some info. and getting some facts... there are some good researchers with your blog... I have some of Virgie's life and that she had a child before Anna (had her at age 16) a son with her step brother she was raised with.

If you can find any information regarding (1) Virgie's incestuous relationship with a step-brother and (2) the "accident" surrounding her son Donald Hart, Jr., that would be extremely helpful.

Here is what someone sent me but I need to be able to verify this and then find something on Donald Hart, Jr. burn about 1972 and became paralyzed in 1975.

Also I remember someone doing an interview about Anna and Virgie used to go out and party at times before Anna met Howard... party as in getting drunk together and also I "think" I heard someone say that Virgie encouraged Anna to take some pills "to help her" right after Mr. Marshall died.

So anyone you trust that can try to dig into this I would really appreciate it.
